WORK EXPERIENCE	Business Consultant and Analyst	From August 2024 to February 2026
	MCA - Cameroon, Yaounde, Bastos	
	Key Project: Millennium Challenge Account – Cameroon Website	
	• Requirements Gathering & Documentation: Collaborated with government stakeholders to capture and formalize business and technical requirements for the MCA-Cameroon website, ensuring alignment with agency objectives. • Stakeholder Engagement: Facilitated workshops and interviews with internal teams to translate user needs into clear specifications for developers and IT staff. • In-House Hosting Strategy: Recommended and supported the transition to in-house hosting, addressing security, compliance, and data sovereignty concerns. • Networking & Infrastructure Setup: Designed and advised on LAN configuration, static IP assignment, and firewall policies to support reliable hosting and internal access. • Process Optimization: Streamlined workflows between IT, communications, and operations teams to ensure efficient content management and system updates. • Risk & Sustainability Considerations: Identified risks related to external hosting dependency and proposed sustainable in-house solutions that reduce costs, improve control, and enhance resilience. • Outcome: Delivered a requirements framework and hosting strategy that improved system reliability, safeguarded sensitive data, and empowered MCA-Cameroon with long-term operational independence.
